Temporary Traffic Light

Le Monde change, TTS innove

Tempo Temporary Traffic Light (Réf. : 21698)

Tempo is the first traffic light with a countdown module to be launched on the market. And remains the light with the greatest autonomy. Tempo is still the # 1 sales.

Made in France

The traffic lights set includes two masts, two battery boxes and remote programming unit. Each mast consists of three LEDs optical Ø 210/80 of high brightness and low power consumption (one red and two yellow)

The cycle, programming and control information are displayed on a backlit LCD screen. Programming is done via an infrared link with a synchronizing unit (remote control).

The waiting time is indicated in minutes and seconds on a LED display readable at 40 meters. This information reassures users and reduces unexpecting crossings.

The battery box has a wheelbarrow shape with a lid made of ABS plastic.

The telescopic pole extends from 1.55 m to 2.20 m.

GENERAL INFORMATIONS

Operation	Alternating one way traffic, rotating traffic or crossroads. 2, 3 or 4 lights.
Power consumption	12 Volt battery or power supply 230/12 Volts. One power supply required per light.
Autonomy – Consumption	1 month with the 12V 100A/h battery or 2 months with the 12V 200 A/h battery.
Protection Class	Protection of light sources and control electronics: IP 56.
Size (L x l x h)	Mast : closed 1.55m – opened 2.20m / Battery box: 960 x 460 x 330 mm.
Weight	85 Kg (excluding batteries) for the set of 2 lights.
Options	Vehicule detection radar or traffic control radar. Remote control. Radio control.
